Baia Mare, str. Păltinișului 12A / telefon-fax: 0262 229 655 / office@interfeva.ro / www.interfeva.ro

Dimensiunile pot fi cuprinse între 700 și 1100 mm pentru lățime, respectiv până la 2200 mm pentru înălțime.

Materialul folosit pentru confecționare poate fi aluminiu sau PVC.

Porțiunea de geam poate fi clar-transparent, colorat în masă, mat, reflectorizant sau antiefracție - toate fiind termopan.

lucrări exemple executate de FEVA INTERNATIONAL

tâmplărie PVC și aluminiu, ferestre, uși interioare și exterioare, fațade de cortină
